Earth Core Energy Services

73 Waterbury Road Unit 2

Prospect, CT 06712

September 22, 2015

Attention: Luca Petracca, President

Earth Core Energy Services recently completed a major mechanical renovation upgrading our heating and air-conditioning systems. As part of the upgrade they installed a wireless DDC energy management system. The project was done under the United Illuminating Company's Energy Opportunities program.

The comprehensive energy project Earth Core Energy Services put together was self-funding and didn't cost the fire department any out of pocket funding. As well as making the building energy efficient, Earth Core Energy Services addressed our comfort issues by zoning our offices, conference room, kitchen, gym, dorm and recreation room so we can have separate temperature points. Fresh air was also introduced into the units so we can breathe easy. Earth Core Energy Services' employees were courteous, hardworking and knowledgeable. I would recommend Earth Core Services!

Very truly yours,

Richard S. Felner, Fire Chief
